

ABDUL WARIS

Front-End Developer • UI/UX Designer

Rawalpindi, Pakistan • +92 326 3104503 • 2003abdulwaris@gmail.com

PROFILE

Front-end developer and UX/UI designer with hands-on internship experience building production web applications with React.js and Next.js. Combines a strong design sensibility — wireframing, prototyping, and user-flow mapping in Figma — with the ability to translate designs into clean, responsive code. Currently completing a BS in Software Engineering at NUML, with a track record of shipping full front-end features across the planning, development, testing, and deployment lifecycle.

EXPERIENCE

Front-End Development Intern | QA Sonic (SMC-Private) Limited *Oct 2025 – Mar 2026*

- Contributed to live web and software application development projects using HTML, CSS, JavaScript, React.js, and Next.js.
- Participated in the full software development lifecycle — planning, development, testing, debugging, and deployment — alongside a professional engineering team.
- Recognized for strong technical, analytical, and collaborative skills, with commendable performance across the internship.

ACADEMIC & PERSONAL PROJECTS

Legal Advisor Mobile Application | UI/UX Designer & Developer

- Designed a comprehensive mobile UI layout in Figma, including custom navigation flows, an integrated AI chat interface, and a lawyer-matching dashboard.
- Produced low- and high-fidelity wireframes focused on accessibility and clear user journeys for citizens seeking legal aid and NGO resources.
- Built with React Native (Expo Go) to translate the approved designs into a functional cross-platform mobile experience.

E-Commerce Web Application | Front-End Developer & UX Designer

- Designed a high-conversion e-commerce interface, streamlining the user flow from product discovery through to checkout.
- Built interactive high-fidelity prototypes in Figma to define user personas, product filtering, and shopping cart interactions.
- Implemented the front end with responsive, cross-device layouts, clean navigation, and fast load times.
- Structured a relational MySQL database to manage product listings, inventory categories, and user data.

SKILLS

- Front-End Development — HTML, CSS, JavaScript, React.js, Next.js
- Mobile App Development — React Native (Expo Go)
- UI/UX Design — Figma (wireframing, prototyping, user flows)
- Database Management — MySQL (schema design, queries)
- Software Development Lifecycle — planning, testing, debugging, deployment

EDUCATION

BS in Software Engineering | National University of Modern Languages (NUML) *2023 – 2027*
